

CHOICES: Ethics for the Workplace

Corporate Price Sheet

Effective January 1, 2002

Product Description: CHOICES: *Ethics for the Workplace* consists of a series of workbooks that can be completed independently or facilitated as classroom training. Pilot data indicates that small group (up to 15) facilitation produces opportunities for open discussion and peer learning which significantly impacts learners. While data indicates that using the entire series impacts *job keeping skills*, the individual work behavior skills modules can also be used as specific *targeted* interventions, in response to any potential problem areas that have been identified by the Employee Reliability Inventory (ERI®) assessment results. The flexible curriculum can be facilitated within a range of 26 to 48 hours or more depending on allowed discussion time as well as individual program constraints.

Individual Item Availability:

1st Choices, 10 to 16 hours of facilitated curriculum. Includes post test. Focus on general concepts of values and work ethics. **\$85.00/Each**

You Have The Right To Make Choices, 2 to 4 hours of facilitated curriculum or individual workbook format with focus on self-esteem. **\$30.00/Each**

Individual Modules, Each represents from 2 to up to 4 hours of facilitated curriculum. Various approaches may be used to deliver the modules ranging from full facilitation to learners independently working through workbooks without instruction, followed by trainer consultation.

NOTE: *Because of the potential for extremely personal experiences elicited by the module examples, it is recommended that participants not be REQUIRED to share personal experiences.*
